Meetings and family reunions

There's plenty to do while vacationing in the Cass Lake Area... with easy access to 8 great fishing lakes and 2 rivers. Cass Lake is large enough that you will never explore it all in one vacation, yet there are many bays and islands, which make fishing easy on windy days. Cass is known for its walleye, musky, largemouth bass, bluegill, crappie and perch fishing, and is also a wonderful lake for boating, skiing, and swimming. Area attractions include museums, gaming casinos, theater, golf courses, and miles of hiking and biking trails.

Stay in our new Musky Lake Level Mansion, a 7 bedroom, 3 bath cabin with knotty pine interior and log furniture. Pets and smoking are not allowed in this new unit. An attached 3-season porch has plenty of room for lake-side dining. This beautiful cabin is great for family reunions and other large gatherings. It is open year round.

Our modern cabins are all slightly elevated off the lake, with great views of morning sunrises over our protected harbor and sand beach area. Each is fully furnished with cable TV, toaster, air conditioning, cooking utensils, coffee maker, and microwave. Most cabins have screen porches, and all face east, with fire rings and plenty of firewood available. Our lodge features a short order restaurant, bait, tackle, gifts, spacious game room with board and video games, satellite cable TV, and pool table.
